Input-dependent Jacobian / error covariance; medians of 5 seeds
Positive pressure lowers CLS mean / SD; negative pressure raises it
Task 10: Update 100, SGD
Task 60: Update 100, SGD
Task 10: Update 500, saved Adam denominator
Task 60: Update 500, saved Adam denominator
Actual fit
Mean signal
Image-dependent covariance
Mean S / RMS of actual S
FFN block (1 = nearest input)
